## DETAILED ACTION

### **Ex parte Quayle**

This application is in condition for allowance except for the following formal matters:

#### ***Claim Objections***

Claims 1-6 are objected to because of the following informalities: The claims contain several instances of irregular capitalization. For example, each subparagraph of claim 1 begins with a capital "A", whereas the lower case "a" should be used. For example, the subparagraph beginning "A fixing cap..." should read "a fixing cap...". Careful review of the claims for such errors is strongly encouraged and appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

#### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The Prior Art does not fairly teach or suggest the pen-shaped tire pressure gauge having the particularly claimed combination of features, especially the particularly

claimed hollow body with recessed measuring head and annular stepped surface, exhausting push rod, coiled spring, scale rod, and fixing cap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record on the attached PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.
